

## **BIO**

### **Assoc. Prof. Ajay Jasra**

Ajay Jasra received his PhD degree in statistics from Imperial College London in 2005. Since 2011 he has been associate professor at the Department of Statistics and Applied Probability at the National University of Singapore. He is a Deans' Chair Associate Professor and Deputy Head of Department. Dr. Jasra has written over 70 peer-reviewed publications. He has advised over 10 PhD students to completion and almost 10 post-doctoral researchers. He has been on teams which have secured over \$2 million (USD) in grant funding. Between 2005-2008 he has held various post-doctoral positions at the University of Oxford, University of Cambridge and the Institute of Statistical Mathematics in Tokyo. He was also Chapman Fellow of Mathematics at Imperial College London in that period. Between 2008-2011 he was assistant professor at Imperial College London. He is currently associate editor at Statistics and Computing, American Journal of Algorithms and Computing, Journal of the Korean Statistical Society and Stat.
